	Urgent	Not Urgent
Important	**Do - (Your MVP)** ● Add a task from the terminal ● List open tasks as a numbered dashboard ● Mark a task done by its number	**Schedule - (For V2.0+)** ● Category labels (school, gym, business, life) with filtering ● Priority levels and a “Today’s top 3” section ● Weekly stats (tasks added, completed, etc.)
Not Important	**Delegate - (Use a library)** ● File reading and writing (java.nio.file) ● Timestamps and data handling (java.time) ● Terminal colors for dashboard (ANSI escape codes)	**Delete - (Cut it)** ● Phone app version ● Syncing across devices ● Fancy UI

User runs java BrainDump <command>
Which command?
anything else
